

## BEAR'S FOOT IS MYSTERY.

Marion, Ind., Oct. 27.—The police department of Marion was asked yesterday to investigate the finding of a human foot in the hallway of apartments in a business block. Two physicians who examined the foot, said it probably was that of a colored man.

Then came the explanation. Burt Small, of the Chevrolet automobile agency, and William Small, Guy Hayes and Arthur Chevrolet of Indianapolis, spent last week at Houghton Lake, Mich., hunting, and Mr. Small shot a young black bear. He could not take the bear from the state, but sent the hide to Detroit to have it tanned and made into a rug. The left hind foot of the bear he brought to this city. Mr. Small skinned the foot and cut the claws from it for an ornament for his desk. The foot was thrown into a box in an alley. It was found by a dog, that carried it into the hallway.
