

## JUDGES' STAND AT CHICAGO'S NEW AUTO TRACK

Here is a view of the new race track at Chicago taken during the elimination trials this week preliminary to the initial race to be held there next Saturday, when the speediest drivers of the world will contest in Chicago's first 500-mile international auto derby.

The photo on the right shows Louis Chevrolet dashing past the judges stand in the Delage car in which he hopes to win the big derby, and incidentally beat the speed record of 111.5 miles established by Barney Oldfield. The picture at the left is that of George Babcock at the wheel of his Peugeot racer tuning up for the preliminaries.
